

**Copyright Assignment**  
for the Technical Programme of  
**CIMAC Congress 2019**

- a. The copyright of all papers to be presented at a CIMAC Congress is vested with CIMAC and may not be published by others. However technical articles which review such papers may quote in summary form some of the key findings provided that due acknowledgement is made of the Authors and of the CIMAC organization.
- b. If an author wishes to reprint the entire paper for his/her own purposes, application should be made beforehand to the CIMAC Central Secretariat for written permission to do so. Such an application will be treated sympathetically and provided that written permission is given, the distribution of the paper shall not take place earlier than two weeks after the Congress.
- c. If a CIMAC paper is proposed to be presented at another later conference or symposium, formal application shall be made to the Central Secretariat for permission to do so. The paper's origins shall be clearly acknowledged on the front of the reprint: e.g. " ... by courtesy of CIMAC".
